DFL End-of-Year Activities

As we move towards the end of academic year 07-08, there are a few important DFL wrap-up tasks. Some are activities to be done with students, and others are professional responsibilities for each DFL participant.

As a reminder, here they are in a user-friendly list:

1. To do with students

   A. Students’ Post-Surveys: by Thursday, May 29th
      Remember the Pre-Survey your students filled out early in the semester about their experiences with technology and learning? Before the semester ends, it’s time to have your students complete the Post-Survey which will be available online (from May 15th on) at:
      http://www.eportfolio.lagcc.cuny.edu/dfl/dflpost_survey.htm
      [If you prefer paper surveys please let Priscilla know how many you need ASAP]

   B. ePortfolio Assessment Deposit: by Thursday, May 29th
      Please see the handout “Depositing Assignments in the ePortfolio Assessment Area” for details. Basically, the 3 W’s (Which assignment, Where on the grid, and get a Workshop in a lab) are what need to be done.

2. To do for your own professional activities related to DFL

   A. Strut your stuff! As part of our annual “DFL Presents” at our final seminar meeting on May 30, present one of the DFL activities you developed. Use your seminar ePortfolio as a starting point, even if your portfolio is still a work in progress. Your presentation should be approximately 5 – 7 minutes long so that there can be time for q & a from your colleagues.

   B. Finish your Seminar ePortfolio summarizing the activities you did while in DFL. This is an important opportunity to reflect on all you’ve learned during your DFL year, to tie it together with your teaching practice, and to determine next steps for working with your students. **Completed DFL Seminar ePortfolios are due on Thursday, June 12.** Please email the guest log-in to Priscilla by 5:00 pm.

Please contact Priscilla at x5489 if you have any questions. Thanks!
